Re: Request for Information: Kummer Sanitary Landfill, Bemidji,
Minnesota

Dear Mr. Lupin:

Following receipt of your July 31, 1984 letter we contacted the City of Bemidji to determine what facilities the City has used for refuse disposal. Attached is a copy of the information we received from the City. The information indicates that Bemidji used more than one facility for refuse disposal since 1980. Keep in mind that Magnetic Peripherals Inc., Bemidji, commenced operations in June, 1979.

Your letter and the previous Request for Information ask for specific information regarding identity, dates of shipment, transporter and volume or weights of wastes sent to Kummer's Sanitary Landfill. My previous letter of June 29, 1984 identified the City of Bemidji as the transporter of refuse from the MPI Bemidji Plant. This refuse consisted of paper, cardboard and periodically empty paint and aerosol cans. We are still unable to determine what amount, if any, of the refuse was transported to Kummer's due to the use of multiple facilities by the City as indicated on the attachment to this letter.

We are also unable to determine the dates of shipment and volumes or weights of refuse picked up by the City. The only records available are "Refuse, Sewer and Water Service" bills. These bills only identify the dollar amount due. They do not contain information concerning volume, weight or date of shipment. Copies of these documents are available for your inspection if necessary.

This information is supplied voluntarily in response to your request. This response is not to be construed as an admission of any kind by Control Data Corporation nor a waiver of any rights or defenses. Please contact me at 853-6569 if further information is required.

Sincerely,

CONTROL DATA CORPORATION
